Be Products and brand design 🔗 My Portfolio

Profile

I am a multidisciplinary and talented Software Developer and Product Designer with a strong passion for building intuitive, scalable products. With expertise spanning UX/UI design and full-stack development, I bridge the gap between design and engineering to deliver seamless end-to-end solutions.

Professional Experience

FullStack Software Developer, TechStudioAcademy 08/2025 – 05/2026
Lagos

- Built a modern car-rental collaboratively with developers and designers, focused on making vehicle discovery and booking feel simple, intuitive, and seamless. I contributed to turning product ideas and designs into a polished, responsive web experience while working closely with a cross-functional team.
- Worked on the frontend and user authentication of ByteAlly a service created by techstudioacademy.
- Integrated RESTful APIs and optimized state management.

Graphic and Product Designer, Renda Africa 07/2023 – 06/2025
Lagos

- Conducted user research and usability testing, improving task completion rate by 30%.
- Built and maintained scalable design systems to ensure UI consistency.
- Collaborated with product managers and engineers to ship features used by 15 users.

Graphic Designer, Jumia 10/2022 – 02/2023
Designed and illustrated marketing campaigns for jumiaPay to improve social media awareness and engagement.

Education

Philosophy, Chukwuemeka Odumegwu University 09/2016 – 2021
Anambra State
